### **Air Conditioning can be modified.**

There are three units with three separate controls. They are located by the Kitchen service window, by the doors leading to the pool area, and next to the bookcase in the room with the pool table. Pressing the up/down arrows will adjust the temperature setting. The system will display a time in a 24 hour clock when the system will automatically return the temperature setting to the original preprogrammed schedule. If the hall is still in use after the re-schedule time you will need to adjust the temperature again.
